

2018-001 | Left laptop on the train

Discovered on	Wed, 23 May 2018 - 12:41
Description	This is where the description of the incident can be found! The description should be as wide as half of the parent view and then centered.
Discovered by	Spotty Incident spottyincident@data.breach

TasksIn-depth informationAdvanced

	Notify data protection authority Register the notification(s) you have done with your national data protection authority here.	<div>Update status</div>
	Inform the data subjects Register any progress on the notification of the data subjects here.	<div>Update status</div>
	Implement technical measures Register any progress on the implementation of technical measures to solve the data breach here.	<div>Update status</div>
	Implement organisational measures Register any progress on the implementation of organisational measures to solve the data breach here.	<div>Update status</div>

Activity history

Implement technical measures - Thu, 24 May 2018 - 15:21 This is where the entire content of the textfield will be displayed. Nothing fancy I guess. It should extend to multiple lines. Preferably we should allow some basic styling in the comments. Such as: <div><div>- bulletpoints</div><div>- enters, spaces and tabs</div><div>- How big of a hassle would it be to allow the use of markdown?</div></div>
Notify data subjects - Thu, 24 May 2018 - 09:33 Here's probably something written notifying the data subjects

Conclude incident

Mark the incident as concluded to indicate that this incident is no longer active.

Conclude incident

You can only conclude an incident when all tasks are marked as completed.
